23 JAN 1981

MEMORANDUM FOR: Director of Logistics

ATTENTION: Chief, Logistics Services Division, OL

FROM:

[REDACTED]
Acting Director of Data Processing

SUBJECT: Space for the COMIREX Automated Management System (CAMS)

REFERENCE: Memorandum to C/LSD/OL from C/AS/ODP, dtd. 21 November 1980, subject: FY 81 Space Requirements (ODP-0-1575)

1. Pursuant to discussions with the Chief, Logistics Services Division, it is requested that 7,000 square feet of space outside the Headquarters Building be furnished to answer our CAMS requirements (see reference). This would allow us to consolidate the [REDACTED] CAMS employees, terminals, and related remote job entry hardware in one building, and, furthermore, would enable us to utilize the space presently occupied by CAMS to help meet the ever-increasing demand for computer assistance to Agency components. To meet this demand, we need additional space for personnel and computer equipment in both the Headquarters Building [REDACTED]. A review of our space holdings in these locations shows density figures of 75.66 and 67.39 square feet respectively for work stations. These exceptionally crowded facilities do not lend themselves to expansion unless CAMS is accommodated elsewhere.

2. Notwithstanding the move of some Headquarters elements [REDACTED] it is understood that space will continue to be scarce in the Headquarters Building. We understand that the relocation of OD&E components may free the requested 7,000 square feet in the Chamber of Commerce Building. If so, this space would be desirable in terms of location, security requirements, etc. Alternate locations for housing the CAMS project have already been ruled out in discussions between our staffs. Your earliest consideration of this request would be greatly appreciated.

Chief, Real Estate and Construction Division, OL

SUBJECT:

Agency Space Projections for FY 1983

1. The General Services Administration (GSA) has requested that the Agency provide information reflecting changes in GSA-assigned space needs for FY 1983, and stipulated that such information be provided no later than 1 March 1981.

2. In order to meet this short deadline, it is requested that addressees review their current [REDACTED] holdings and advise this Office by 17 February of any anticipated increases or decreases in their current space assets.

STAT

3. The information requested [REDACTED]

STAT

STAT

[REDACTED]
does not pertain to the Headquarters Building, Printing and Photography Building, or National Photographic Interpretation Center.

4. Understandably, the deadline specified for this information does not permit an in-depth study and your best estimate of changes anticipated by FY 1983 will be satisfactory. If any further information is required, please contact [REDACTED]
